

## Project Educate H.O.P.E. for the Future

### North Star

**Zero racial disparities in infant mortality by 2033.**

### High Infant Mortality Zip Codes

This project served participants in the following FLOURISH priority zip codes:

**63112, 63114, 63133,  
63134 63135**

### How much did we do?

**10**

Participants

**12**

Workshops

**24**

Case management sessions

**1**

Early childhood literacy day

### Program Description

This FLOURISH grant funded Project Educate at H.O.P.E. for the Future, Inc. The purpose of this grant is to decrease infant mortality and death during childbirth. The project provided prenatal, parenting and safety education along with the necessary supplies and supports to achieve these goals. This project took place from July 2021 to September 2022.

### Priority Areas

FLOURISH Community Leaders Cabinet identified priority areas they believe will have the most significant impact on improving conditions for Black families. Infant mortality is a complex issue that can't be solved by one organization alone. Below, you will find population level data where FLOURISH is contributing to changes for Black families alongside other organizations. H.O.P.E. for the Future is working to move the needle for the individuals they serve in the areas listed below.

FLOURISH Priority Area	Category of Work	Population Level Data
Social Determinants of Health	Education and Resources	<ul style="list-style-type: none"> <li><a href="#">Access to Resources</a></li> </ul>
Coordinated Quality Care	Perinatal Behavioral Health	<ul style="list-style-type: none"> <li><a href="#">Poor Mental Health Days</a></li> </ul>
Safe Sleep	Safe Sleep	<ul style="list-style-type: none"> <li><a href="#">Sudden Unexplained Infant Deaths (SUID)</a></li> </ul>

FLOURISH uses a **results-based accountability** model of evaluation, because it helps show how collaborative efforts can make an impact on reducing disparities in infant mortality. We focus on how well programs address root causes of the issue and whether Black pregnant and parenting families are better off.

### How well did we do it?

How were Black pregnant and parenting families impacted by this project?

### Is anyone better off?

What change occurred as a result of this project?
